${ }^{2}$ Incentive-based costs related to the acquisitions and growth initiatives in CGWM UK and US and UK capital markets divisions.

Diluted earnings per common share ("diluted EPS") is computed using the treasury stock method, giving effect to the exercise of all dilutive elements. The Convertible Preferred Shares issued by CGWM UK are factored into the diluted EPS by adjusting net income attributable to common shareholders of the Company to reflect our proportionate share of CGWM UK's earnings on an as converted basis if the calculation is dilutive. For the quarter ended June 30 , 2023 the effect of reflecting our proportionate share of CGWM UK's earnings is anti-dilutive for EPS purposes under IFRS but dilutive on an excluding significant items basis. When the calculation is anti-dilutive the non-controlling interest reflects dividends paid on the Convertible significant items on an as converted basis. Diluted EPS under IFRS is computed on net income attributable to common shareholders less accrued and paid dividends on Convertible Preferred Shares issued by CGWM UK.

## Canaccord Genuity Group of Companies

## Summary of operating results and earnings per share by segment

(A) Figures excluding significant items are non-IFRS measures.
(B) Allocation of consolidated tax provision based on management estimates by region and by business unit
(C) Allocation to capital markets and wealth management segments based on revenue
(D) During the quarter ended June 30, 2023, the Company recorded a net loss attributable to common shareholders, and as such, the diluted EPS is equal to the basic EPS since all instruments involving potential common shares were excluded from the calculation of diluted loss per common shares as they were anti-dilutive.
