Any Additional Shares will be limited to the extent that there are sufficient Offer Shares available after satisfying all Applications received from Eligible Shareholders for Entitlements pursuant to the Offer and allocations made by the Underwriter (i.e. there is a shortfall between the number of Offer Shares applied for under the Offer and the total number of Offer Shares offered to Eligible Shareholders under the Offer). The Company may, in its absolute discretion, determine whether or not to accept any or all applications for Additional Shares by Eligible Shareholders.

It is possible that there will be few or no Additional Shares available, depending on the level of acceptance of Entitlements by Eligible Shareholders and allocations made by the Underwriter in accordance with the terms of the Underwriting Agreement. There is therefore no guarantee that in the event that Additional Shares are available for issue, they will be allocated to all or any of the Eligible Shareholders who have applied for them.

Following the allocation of the Additional Shares, any remaining Offer Shares will be issued to the Underwriter or its nominees in accordance with the Underwriting Agreement.

The Company's decision as to the number of Additional Shares to be allocated to you will be final and binding. The Company may issue to an Applicant a lesser number of Additional Shares or not proceed with the issuing of all or part of the Additional Shares. If the number of Additional Shares is less than the number applied for, surplus Application Monies will be refunded without interest.

4.14 ASX Quotation

Application for Official Quotation of the Offer Shares and Attaching Options offered pursuant to this Offer Document will be made in accordance with the timetable set out at the commencement of this Offer Document.

The fact that ASX may grant Official Quotation to the Offer Shares or the Attaching Options is not to be taken in any way as an indication of the merits of the Offer or an interest in the Company.

4.15 Allotment

Shares issued pursuant to the Offer will be allotted in accordance with the ASX Listing Rules and timetable set out in section 1.2 of this Offer Document.

Additional Shares issued will be allotted on a progressive basis. Where the number of Shares issued is less than the number applied for, or where no allotment is made, surplus Application Monies will be refunded (without interest) as soon as practicable after the closing date of the Offer.

Pending the allotment and issue of the Shares or payment of refunds under this Offer Document, all Application Monies will be held by the Company in trust for the Investor in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Investor waives the right to claim interest.

Holding statements for Offer Shares and the Additional Shares will be mailed in accordance with the ASX Listing Rules and the timetable set out in section 1.2 of this Offer Document.

4.16 Offer Document and the Corporations Act

This Offer Document is issued pursuant to section 708AA of the Corporations Act without disclosure to investors under Part 6D.2 of the Corporations Act.

Accordingly, neither this Offer Document nor the Entitlement and Acceptance Form are required to be lodged or registered with ASIC and no prospectus for the offer will be prepared. In general terms, section 708AA permits certain companies to undertake rights issues without being required to use or provide to shareholders a prospectus or other disclosure document. Accordingly, the level of disclosure in this Offer Document is significantly less than the level of disclosure required in, and what you would ordinarily expect in, a prospectus.

In accordance with the conditions imposed on the Company by section 708AA of the Corporations Act, the Company provided ASX with a notice that complied with the requirements of section 708AA(7) on 20 January 2022. The notice was required to:

- (a) set out information that had been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules and that Investors and their professional advisers would reasonably require, and would reasonably expect to find in a disclosure document, for the purpose of making an informed assessment of:
 - (i) assets and liabilities, financial position and performance, profits and losses and prospects of the Company; or
 - (ii) the rights and liabilities attaching to the Shares offer under this Offer Document; and
- (b) state the potential effect of the issue of the Shares offer under this Offer Document on the control of the Company and the consequences of that effect.

Completion of the Offer will result in an increase in cash at hand of up to approximately \$3.4 million (before the payment of the costs associated with the Offer).

The Company intends to apply the funds raised under the Offer and the proceeds of the Placement (approximately \$5.7 million in total) to:

- (a) finalise the depressive burden validation trial and submit the data for FDA approval pursuant to a De Novo application;
- (b) establish the depressive burden trial with Medibio's existing research partner, Medbridge Health, for monitoring of sleep disturbance patients in the home environment;

- (e) general working capital.

The above statement is a statement of current intentions as at the date of this Offer Document. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied.

5.2 Effect of the Offer

5.4 Possible dilutive effect

The dilutionary effect of the Offer on your shareholding will depend on whether you are an Eligible Shareholder and if so, whether you elect to subscribe for some or all of your Entitlement.

If Eligible Shareholders take up all of their entitlements under the Offer, Eligible Shareholders will hold the same percentage interest in the Company as they did immediately prior to completion of the Offer.

However, to the extent that any Shareholder fails to take up their full Entitlement to Offer Shares under the Offer, or is are Ineligible Shareholders unable to participate in the Offer, that Shareholder's percentage holding in the Company will be diluted.

Please refer to Section 5.5 of this Offer Document for detail of the effect of the Offer on voting power in the Company.

5.5 Effect of Offer on Voting Power in the Company

As the acquisition of Shares under the Offer and Shortfall Offer does not satisfy the requirements of exception 10 of section 611 of the Corporations Act, no person (including the Underwriter or any sub-underwriters) will be entitled to acquire Offer Shares pursuant to the Offer or Shortfall Offer if to do so would result in their, or another person's, Voting Power in the Company increasing from 20% or below to more than 20%, or from a starting point above 20% to below 90%, unless an exception to the restrictions contained in section 606 of the Corporations Act applies.

Accordingly, as there are currently no exceptions to the restrictions contained in section 606 of the Corporations Act and in light of the size of the Offer, the Offer is not expected to have any material effect or consequence on the control of the Company.

Details of the control implications are set out below.

Shareholders should note that if they do not participate in the Offer, then following completion of the Offer and the Placement, their Voting Power will be diluted by 29.85%. Examples of how the dilution may impact Shareholders are set out below.

The below table assumes that:

- the Placement Shares are placed in accordance with the firm commitments received by the Company;
- no Shares are issued before the Record Date, as a result of the exercise of Options; and
- those Entitlements not accepted by the shareholder are placed as Additional Shares or subscribed by the Underwriter.

Holder	Record Date		Entitlement	Post-Tranche 2 Placement		Post-Offer	
	Shares	%		Shares	Shares	%	Shares
Shareholder 1	100,000,000	4.85%	33,333,333	100,000,000	4.44%	100,000,000	3.40%
Shareholder 2	50,000,000	2.43%	16,666,667	50,000,000	2.22%	50,000,000	1.70%
Shareholder 3	20,000,000	0.97%	6,666,667	20,000,000	0.89%	20,000,000	0.68%
Total	2,061,051,123	100%	687,018,109	2,251,100,373	100%	2,938,118,482	100%

Shareholders should also note that if all Shareholders do not take up their Entitlement and accordingly, are ineligible to subscribe for any Additional Shares, the Underwriter will obtain a maximum Voting Power of 29.85% of the Company. The table below sets out examples of the possible voting power of the Underwriter based on the participation of Shareholders in the Offer.

This table assumes that:

- the Placement Shares are placed in accordance with the firm commitments received by the Company;
- no Shares are issued before the Record Date, as a result of the exercise of Options; and
- those Entitlements not accepted are placed solely with the Underwriter or its associates.

Underwriter's Voting Power Pre-Offer	Total Shareholder take up of Entitlements	Shares taken up by Underwriter under Shortfall	Underwriter's Voting Power Post-Offer
0%	100%	-	0%
0%	50%	100,000,000	3.40%

0%	25%	150,000,000	5.11%
0%	0%	200,000,000	6.81%

5.6 Details of substantial holders

Based on publicly available information as at the close of trading on 19 January 2022, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Substantial Shareholder	At date of Offer Document		On completion of Offer	
	Shares	%	Shares	%
FIL Limited	121,928,459	7.7%	121,928,459	4.44%
Total	121,928,459	7.7%	121,928,459	4.44%

If a substantial holder of the Company does not participate in the Offer, and the Offer and any Shortfall is fully subscribed, their holding will be diluted.

6. Risk Factors

6.1 Introduction

An investment in the Company is not risk free and should be regarded as speculative.

There are specific risks which relate directly to the Company's activities. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares and the underlying Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed and do not take into account the individual circumstances of Shareholders.

The Directors strongly recommend potential Investors to consider the risk factors described below, together with information contained elsewhere in this Offer Document and consult with their professional advisers before deciding whether to apply for Shares under this Offer Document.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

6.2 Specific risks

(a) Competition regulation and loss of reputation

The health industry is intensely competitive and subject to rapid and significant change. A number of companies, both in Australia and abroad, may be pursuing the development of products that target the same markets that the company is targeting. The Company's products may compete with existing products that are already available to customers. In addition, a number of companies, both in Australia and abroad, may be pursuing the development of products that target the same customers that the Company is targeting. The Company may face competition from parties who have substantially greater resources.

(b) Regulatory approvals and investigations

The research, development, manufacture, marketing and sale of products using the Company's technology are subject to varying degrees of regulation by a number of government authorities in Australia and overseas. Specifically, the Company anticipates submitting a De Novo application to the U.S. Food and Drug Administration (**FDA**) in 2022 for its depression medical software device MEB-001, the FDA will review that application and determine if it is appropriate to clear MEB-001 for marketing in the US.

Such approval from the FDA is reliant on regulator interpretation of data from trial and other development activities, and can take longer, require additional work (including further trials) or may not be provided at all. As a result, the Company's development programs on MEB-001 and any other product requiring FDA approval, may be delayed, incurring additional cost and may require additional funding to obtain such approvals. Any disruption, delay or failure of the Company to obtain any necessary approvals could impact adversely on the Company.

In addition to regulatory approvals for applications made by the Company, the Company may also become subject to regulatory investigations by any one or more regulatory bodies for current or historical actions by the Company. Depending on the outcome of regulatory investigations, the Company may be fined or sanctioned and its reputation and brand may be negatively impacted, which could adversely affect its business prospects, financial condition and results of operation.

(c) **Dependence upon key personnel**

The Company depends on the talent and experience of its personnel as its primary asset. There may be a negative impact on the Company if any of its key personnel leave. It may be difficult to replace them, or to do so in a timely manner or at comparable expense. Additionally, any key personnel of the Company who leave to work for a competitor may adversely impact the Company.

In summary, the Company's ability to attract and retain personnel will have a direct impact on its ability to achieve its commercialisation and commitments. Additionally, increases in recruitment, wages and contractor costs may adversely impact upon the financial performance of the Company.

(d) **Requirement to raise additional funds**

The Company may be required to raise additional equity or debt capital in the future. There is no assurance that it will be able to raise that capital when it is required or, even if available, the terms may be unsatisfactory. If the Company is unsuccessful in obtaining funds when they are required, the Company may need to delay or scale down its operations.

(e) **Research & Development Grant (Commonwealth)**

Currently, the Company is eligible for an annual R&D Tax Incentive refund. The R&D Tax Incentive is an Australian Government program under which companies receive cash refunds for 43.5% of eligible expenditures on research and development. There is no guarantee that this program will continue or that the eligibility criteria will not change. Refunds are subject to audit by the Australian Tax Office and AusIndustry and repayment is required in certain circumstances, should the relevant regulators deem the claim is not in accordance with the relevant legalisation.

(f) **Growth**

There is a risk that the Company may be unable to manage its future growth successfully. The ability to hire and retain skilled personnel as outlined above may be a significant obstacle to growth.

(g) **Intellectual Property**

The Company's ability to leverage its innovation and expertise depends upon its ability to protect its intellectual property and any improvements to it. The intellectual property may not be capable of being legally protected, may be the subject of unauthorised disclosure, and may be unlawfully infringed. The Company may incur substantial costs in asserting or defending its intellectual property rights.

(h) **Risk of delay and continuity of operations**

The Company may experience delays in achieving some or all of its milestones, including but not limited to product development, obtaining regulatory approvals, or generating licensing opportunities and sales and revenue generation. The Company is also dependent on, amongst other things, its technology, key personnel and IT systems. Any disruption or delay to any key inputs could impact adversely on the Company.

(i) **Liability claims**

The Company may be exposed to liability claims, including but not limited to those that could arise in connection with its provision of services, such as if they are provided in fault and/or cause harm to its customers. As a result, the Company may have to expend significant financial and managerial resources to defend against such claims. If any such claim against the Company is successful, the Company may be fined or sanctioned and its reputation and brand may be negatively impacted,

which could adversely affect its business prospects, financial condition and results of operation.

The Company may be exposed to claims from employees, including those who have left the company or may leave it in future for unfair dismissal.

(l) **Contractual risks**

As a party to contracts, the Company may face claims of breach or noncompliance by a contracting party. No assurance can be given that all contracts will be fully performed by all contracting parties and that the Company will be successful in securing compliance with the terms of each contract by the relevant third party.

(m) **Exchange rate risk**

The expenditure of the Company is and will be in Australian and US currencies, exposing the Company to fluctuations and volatility of the rates of exchange between the Australian dollar and the US dollar as determined in international markets.

(n) **Commercialisation**

Developing software and technology involves the expenditure of significant funds and often involves an extended period of time to achieve a return on investment. While the Company's business strategy is to continue to make investments in innovation in the development and commercialisation of its technologies, the company may not generate significant revenues from these investments for several years (if at all).

(o) **COVID-19**

The COVID-19 pandemic and associated restrictions on social distancing imposed by governments has had and continues to have an impact on the Company business and in particular on the Company's operations in Minneapolis, US. Furthermore, the progress of the clinical trials undertaken by the Company in US has been hindered by the closure of sleep clinics across the US as a result of COVID-19.

It should be further noted of the possible impacts of COVID-19 on the FDA's ability continue to process applications in the normal course of ordinary business due to the pandemic impacts. As such, the Company may be impacted by delays in processing any submissions lodged with FDA, ultimately impacting the Company's progression.

There are also other changes in the domestic and global macroeconomic environment associated with the events relating to COVID-19 that are beyond the control of the Company and may be exacerbated in an economic recession or downturn. These include but are not limited to:

- changes in inflation, interest rates and foreign currency exchange rates;
- changes in employment levels and labour costs;
- changes in aggregate investment and economic output; and
- other changes in economic conditions which may affect the revenue or costs of the Company.

While it is difficult for the Company to quantify the extent and duration of the impact of the COVID-19 pandemic on the global economy, any sustained period of economic downturn as a result of the pandemic may disrupt or delay the Company's intended programs and may impact the Company's ability to raise capital in the near to medium-term future.

With the emergence of the COVID-19 pandemic and its impact on the global macroeconomic environment, there is the risk of future pandemics which may or may not be connected with COVID-19 or any future variants of the virus.

6.3 General risks

(a) Economic risks and market conditions

Factors, such as, but not limited to, world economic conditions, political instability, stock market trends, interest rates, exchange rates, inflation levels, commodity prices, industrial disruption, environmental impacts, international competition, taxation changes and legislative or regulatory changes may all have an adverse impact on our revenues, operating costs, profit margins and Share price. These factors are beyond the control of the Company and the Company cannot predict how they will impact its business.

(b) Changes in legislation and government regulation

Government legislation in Australia or any other relevant jurisdiction, including changes to the taxation system, may affect future earnings and relative attractiveness of investing in the Company. Changes in government policy or statutory changes may affect the Company and the attractiveness of an investment in it.

(c) Unforeseen risk

There may be other risks which the Directors are unaware of at the time of issuing this Offer Document which may impact on the Company, its operations and/or the valuation and performance of the Company's securities.

(d) Combination of risk

The Company may not be subject to a single risk. A combination of risks, including any of the risks outlined in this Section could affect the performance valuation, financial performance and prospects of the Company.

(e) Unforeseen expenditure risk

Expenditure may need to be incurred that has not been taken into account in the preparation of this Offer Document. Although the Company is not aware of any additional expenditure requirements other than those announced on the ASX and disclosed in this Offer Document, if such expenditure is subsequently incurred, this may adversely affect the expenditure proposals of the Company.

(f) Market conditions

Equities market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Equities market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and biotechnology stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(g) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and may be prevented from progressing the commercialisation of its products. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(h) **Speculative investment**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the securities offered under this Offer Document.

Therefore, the Shares to be issued pursuant to this Offer Document carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those securities.

Potential investors should consider that an investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for securities pursuant to this Offer Document.

7. Additional information

7.1 Continuous disclosure obligations

The Company is listed on the ASX and its Shares are quoted on the ASX under the code: MEB.

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) and is subject to regular reporting and disclosure obligations under the Corporations Act and the ASX Listing Rules, including the preparation of annual reports and half yearly reports. The Company is required to disclose to ASX any information of which it is or becomes aware concerning the Company and which a reasonable person would expect to have a material effect on the price or value of the Company's securities.

This Offer Document is issued pursuant to section 708AA of the Corporations Act without disclosure to investors under Part 6D.2 of the Corporations Act.

This Offer Document is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus or other disclosure document that is required to satisfy the Corporations Act. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquiries as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Offer Document which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

7.2 Market price of Shares

The Company is a disclosing entity for the purposes of the Corporations Act and its Shares are enhanced disclosure securities quoted on ASX.

The highest, lowest and last market sale prices of the Shares on ASX during the three months immediately preceding the date this Offer Document and the respective dates of those sales were:

	Share Price	Date
Highest	\$0.009	18 October 2021
Lowest	\$0.005	19 January 2022
Last	\$0.005	19 January 2022

7.3 Interests of Directors

The interests of the Directors hold either directly or through their controlled entities in the securities of the Company as at the date of this Offer Document are as follows:

Director	Shares	Options	Entitlement (Offer Shares)
Claude Solitario	52,220,086	24,150,000	17,406,695

Director	Shares	Options	Entitlement (Offer Shares)
Melanie Leydin	Nil	4,800,000	Nil

The Board recommends all Eligible Shareholders take up their Entitlements.

7.4 Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

7.5 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company currently operates an electronic issuer-sponsored register and an electronic CHES sub-register. The two sub-registers together will comprise the Company's register of Shares.

The Company will not issue certificates. Investors who are allotted Shares under this Offer Document will be provided with a transaction confirmation statement which sets out the number of Shares allotted to the Investor. Investors who elect to hold Shares on the issuer-sponsored sub-register will be provided with a holding statement (similar to a bank account statement) which sets out the number of Shares allotted to the Shareholder under this Offer Document. For Investors who elect to hold their Shares on the CHES sub-register, the Company will issue an advice that sets out the number of the Shares allotted to the Investor under this Offer Document. At the end of the month of allotment, CHES, acting on behalf of the Company, will provide those Shareholders with a holding statement that confirms the number of Shares held and any transactions during that month.

A holding statement (whether issued by CHES or the Company) will also provide details of the applicable Holder Identification Number in case of a holding on the CHES sub-register or Reference Number in case of a holding on the issuer-sponsored sub-register. Following distribution of these initial holding statements, a holding statement will also be provided to each Shareholder at the end of any subsequent month during which the balance of that Shareholder's holding of securities in the Company changes.

A Shareholder may request a holding statement at any other time. However, a charge may be imposed by the Share Registry for additional statements.

7.6 Privacy Act

If you complete an application for Shares, you will be providing personal information to the Company (directly or by the Share Registry). The Company collects, holds and will use that information to assess your application, service your needs as a holder of equity securities in the Company, facilitate distribution payments and corporate communications to you as a Shareholder and carry out administration.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Share Registry.

You can access, correct and update the personal information that we hold about you. Please contact the Company or the Share Registry if you wish to do so at the relevant contact numbers set out in this Offer Document.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the

information required on the application for Shares, the Company may not be able to accept or process your application.

If you do not provide the information required on the Entitlement and Acceptance Form, the Company may not be able to accept or process the application.

7.7 Rights issue exception not available

No nominee has been appointed for Ineligible Shareholders under section 615 of the Corporations Act and, as such, Eligible Shareholders will not be able to rely on the exception for rights issues in Item 10 of Section 611 of the Corporations Act. Accordingly, when an Eligible Shareholder applies for some or all of their Entitlement, they must have regard to section 606 of the Corporations Act. Eligible Shareholders who may be at risk of exceeding the 20% Voting Power threshold in section 606 as a result of acceptance of their Entitlement or subscribing for Additional Shares pursuant to the Shortfall Offer should seek professional advice before completing and returning the Entitlement and Acceptance Form.

7.8 Litigation

So far as the Company is aware, there are no legal or arbitration proceedings, active or threatened against, or being brought by, the Company which may have a material effect on the Company's financial position.

7.9 No cooling-off rights

Cooling-off rights do not apply to an investment in Offer Shares. You cannot, in most circumstances, withdraw your application once it has been accepted.

7.10 Alteration of terms

The Company reserves the right, at its discretion, to vary all or part of the Offer at any time, subject to the Corporations Act and ASX Listing Rules and any other law or regulation to which the Company is subject.

7.11 Placement

The Company has entered into a capital raising mandate with the Underwriter on 11 December 2021 (**Underwriter Mandate**), pursuant to which the Underwriter has agreed to manage the Placement. The Company has agreed to pay to the Underwriter the follow fees:

- (a) an aggregate fee of 6% (plus GST) of the total gross amount raised under the Placement; and
- (b) an entitlement to subscribe for options to acquire shares in the Company at an issue price of \$0.00001 per option on the basis of ten (10) options for every \$1.00 of all funds raised under the Offer and Placement. Such options will be in the same class and on the same terms as the Attaching Options (i.e. MEBOC) (**Underwriter Options**);
- (c) In addition, the Company has agreed to pay the Underwriter a monthly retainer fee of \$6,000 (excluding GST) for ongoing corporate advisory services for a period of 24 months.

7.12 Underwriting
