As the Authorised Corporate Director (the "**ACD**") of the Company we are writing to inform you about forthcoming changes to the Fund which are due to take place on 25 June 2024 (the "**Effective Date**"). The Prospectus and other documents related to the Fund will be updated to reflect these changes on the Effective Date.

It is important that we explain our reasons for making these changes, and the options that are available to you.

Amendment to the investment policy of the Fund to permit investment in additional types of bonds.

We will amend the investment policy of the Fund to allow it to invest in bonds issued by government owned and / or government sponsored entities. Such investment will be included in the maximum 20% of the Fund which may be invested in bonds which are not index-linked UK Government bonds. We have also clarified in the paragraph related to such investments that this 20% category may include investment in UK Government bonds which are **not** index-linked. The Fund's minimum 80% investment in index-linked gilts (UK Government bonds) will remain unchanged.

We have also made a small number of language tidy-ups to the Fund's investment policy in the Prospectus.

All changes to the Fund's investment policy in the Prospectus are detailed in Appendix 1 to this letter.

Reason for the changes

By permitting investment in bonds issued by government owned and / or government sponsored entities (i.e. in addition to government issued bonds), we will enlarge the investment universe for the Fund and potentially enhance returns, with no additional credit risk - given that any investment in such bonds is subject to the same minimum rating requirements as non-UK government bonds stated in the Fund's investment

policy (i.e. "a rating the same or higher than bonds issued by the United Kingdom Government").

The clarification around investment in UK Government bonds which are not indexlinked, and the language tidy-ups, referred to above are for increased clarity to assist investor understanding.

Implications

These changes will not alter the investment objective or materially affect the risk profile of the Fund.

We have classified these changes as significant in accordance with the rules contained in the FCA's Collective Investment Schemes Sourcebook. Accordingly, we, as ACD, are giving you at least 60 days' advance notice of the changes, during which period, if you are not happy with the proposals, you may switch or redeem your Shares. This letter constitutes such notice.

If you are not in agreement with any of the proposed changes you may switch or redeem your Shares in the usual way, by 12:00 on 24 June 2024 at the latest, in line with the timetable below.

24 April 2024	Shareholders notified (60 days' notice required)
