Dear Shareholder,

We are writing to inform you that the Investment Objective, as described in the prospectus, for the HSBC Global Investment Funds' sub-funds listed below (the "Sub-Funds"), in one or more of which you own shares, has been enhanced. The enhancement reflects that they are managed as Article 8 Sustainable Finance Disclosure Regulation (SFDR) funds.

Article 8 funds promote environmental, social and governance (ESG) factors as an integral part of their investment strategy and decision making process. This could be accomplished by focusing, for example, on companies with a better than average ESG rating, companies following strong corporate governance practices or restricting investment in certain industries. Further information on HSBC Asset Management's responsible investment policy is available at [www.assetmanagement.hsbc.com/about-us/responsible-investing/policies](http://www.assetmanagement.hsbc.com/about-us/responsible-investing/policies).

In addition, for the purposes of Article 8, a restriction on investing in companies with exposure to specific excluded activities ("Excluded Activities"), such as thermal coal extraction, will come in to force from 14 October 2022.

These enhancements to the Sub-funds' Investment Objectives reflect HSBC Asset Management's aim of being a world leader in sustainable investing through the continuing development of a sustainable product range which incorporates ESG factors in the investment decision making process.

The enhancement of the Investment Objective and the additional restriction does not signify a change to Sub-funds' core investment objectives or risk ratings. The charges and expenses relating to the Sub-Funds will not change. The charges and expenses relating to the Sub-Funds will not change.

Please take a moment to review the important information given below. If you have any questions, please contact your local agent or HSBC Asset Management office.

**You do not need to take any action. However, you do have three options that are explained below.**

## Reason for the Investment Objective Enhancements

Over recent years ESG factors and sustainability have become an increasingly important part of investment management decision making. SFDR formalises the categorisation of funds based on their approach to ESG factors and sustainability. There are three categories:

Article 9 - a fund that has ESG factors and sustainability as its primary investment objective;

Article 8 - a fund for which ESG factors and sustainability are an integral part of the investment process and which promotes the same; and

Article 6 - a fund that is neither an Article 9 or 8 fund. Article 6 funds may include ESG factors in their investment process but not in a formal manor and does not promote itself as Article 8 or 9.

HSBC has had the capability to integrate ESG factors and sustainability into its investment process for a considerable time and has a number of long established funds that qualify as Article 8 funds. Based on this and the introduction of SFDR we have reviewed all sub-funds of HSBC Global Investment Funds with a view of re-categorising them from Article 6 to Article 8. The Sub-Funds were identified as those for which ESG factors and sustainability is already an integral part of the investment process.
