- iii. Our policies and procedures require that neither we nor (to the best of our knowledge) any Affiliate or Related Entity use or rely upon quotas, appraisals, performance or personnel actions, bonuses, contests, special awards, differential compensation or other actions or incentives that are intended or would reasonably be expected to cause the Advisor to make recommendations that are not in your “Best Interest”².

Such compensation practices can include differential compensation based on neutral factors tied to differences in the services delivered to you with respect to different types of investments, as opposed to differences in the amounts of

Third Party Payments that we receive in connection with particular investment recommendations so long as such practices are not intended and would not reasonably be expected to cause your Advisor to make imprudent recommendations, to subordinate your interests to the Advisor’s own interests, or to make recommendations based on the Advisor’s consideration of factors or interests other than your investment objectives, risk tolerance, financial circumstances, and needs.
