#### INTRODUCTION

Canaccord Genuity Investment Funds plc (the "Company") is an umbrella fund with segregated liability between sub-funds established as an open-ended investment company with variable capital under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended, (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 51(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as amended, (the "Central Bank UCITS Regulations") and has been authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities ("UCITS"). Different sub-funds ("Funds") may be established from time to time by the Directors with the prior approval of the Central Bank.

The Funds of the Company that have been established and were in existence during the six months ended 30 September 2023 are outlined below:

#### **CANACCORD GENUITY CAUTIOUS FUND**

The investment objective of the Fund is to generate income and capital growth by investing in an internationally diversified portfolio of shares and units in investment funds and individual high quality fixed interest instruments.

The Fund is primarily a fund of funds that seeks to achieve its investment objective and policy by exposure to international equity markets equal to a maximum of 50% of its net assets by investing in the securities of regulated investment funds and fixed interest securities; and by an exposure to international debt markets equal to a maximum of 40% of its net assets may be invested in direct assets, primarily in debt securities consisting of bonds (both corporate and sovereign, fixed and floating) and to a lesser extent in equities.

#### **CANACCORD GENUITY BALANCED FUND**

The investment objective of the Fund is to generate capital growth by investing in an internationally diversified portfolio of shares and units in investment funds and individual high quality fixed interest instruments.

The Fund is primarily a fund of funds that aims to achieve its objective by indirect exposure to international equity markets equal to a maximum of 60% of its net assets by investing in the securities of regulated investment funds. The Base Currency of the Fund is US Dollars but investments and shares may be denominated in other currencies.

#### **CANACCORD GENUITY GROWTH FUND**

The investment objective of the Fund is to generate capital growth by investing in an internationally diversified portfolio of shares and units in investment funds and individual high quality fixed interest instruments.

The Fund is primarily a fund of funds that aims to achieve its objective by indirect exposure to international equity markets equal to a maximum of 85% of its net assets by investing in the securities of regulated investment funds. The Base Currency of the Fund is US Dollars but investments and shares may be denominated in other currencies.

#### **CANACCORD GENUITY OPPORTUNITY FUND**

The investment objective of the Fund is to generate capital growth by investing in an internationally diversified portfolio of shares and units in investment funds and individual high quality fixed interest instruments.

The Fund is primarily a fund of funds that pursues its investment objective by investing primarily in a portfolio of regulated investment funds and fixed interest securities. The Base Currency of the Fund is US Dollars but investments and shares may be denominated in other currencies.

#### CANACCORD GENUITY BOND FUND

The investment objective of the Fund is to generate positive total returns from a diversified portfolio of bonds and other debt securities and investment funds.

The Fund aims to achieve this objective by investing into a portfolio of high quality bonds, investment funds and money market instruments, with a bias towards sterling denominated assets across all permitted asset classes. In normal circumstances, the Fund will aim to deliver income in excess of the average rate achievable through a one-year cash deposit.

#### **CANACCORD GENUITY GLOBAL EQUITY FUND**

The investment objective of the Fund is to generate long-term capital growth for investors.

The Fund seeks to achieve this objective by investing in a diversified portfolio of equities from around the globe. At least 80% of the Fund's net assets will at all times be invested in listed securities.

While the Fund aims to invest directly in equities, it may, to the extent permitted by the Fund's investment restrictions, also periodically hold cash and invest in other types of instruments such as other transferable securities, money market instruments, deposits or other investment funds. Such types of investments would be bought by the Fund to either protect, diversify or enhance returns. Where the Fund invests in other funds, such funds would typically be regulated and domiciled in western markets.

## **INTRODUCTION** (continued)

#### **CANACCORD GENUITY THEMATIC ESG FUND**

The investment objective of the Fund is to generate long-term capital growth by investing primarily in a portfolio of regulated investment funds and fixed interest securities that have a clear and unambiguous focus on sustainability.

The Fund is primarily a fund of funds that pursues its investment objective by investing primarily in a diversified range of thematic funds that deliver competitive returns, mitigate ESG risks, pursue ESG opportunities and focus on measurable impact solutions.

In seeking to achieve its investment objective and policy, the Fund seeks an indirect exposure to international equity markets equal to a maximum of 100% of its net assets by investing in the securities of regulated investment funds.

#### **INVESTMENT MANAGER'S REPORTS**

For the financial period ended 30 September 2023

#### **Canaccord Genuity Cautious Fund**

#### Fund's performance

For the 6 months to 30 September 2023, the Fund returned -1.44% (GBP R class). This compares to a fall of 1.00% for the Fund's peer group, the Morningstar EAA Fund GBP Allocation 20-40% Equity sector.

#### **Market review**

The last 6 months clearly showed that the US economy is in a league of its own in terms of growth, as massive fiscal spending on infrastructure and renewable energy, as well as the "reshoring" of Chinese manufacturing, helped boost economic activity. The rest of the world is not so lucky, as higher interest rates, energy and consumer prices held back growth in Europe and the UK, while China's economy continues to disappoint despite multiple (small) attempts by the authorities to help the beleaguered property sector, support lending institutions and generally encourage the consumer to turn more optimistic.

Given this backdrop, it is perhaps unsurprising that the path of least resistance for US yields was up during the quarter, with 10-year US government bond yields surpassing 4.6% in September, a level last seen in 2007 before the onset of the Global Financial Crisis.

While stock markets started the period strongly, the majority ended September at or below their end of March levels, as rising yields ultimately took their toll on valuations. Japan was one of the few markets to buck the trend, as strong earnings momentum and attractive valuations continued to buoy stock prices.

#### Activity/review

The Fund marginally underperformed its peer group over the reporting period, with positive relative returns in the second quarter eroded during the third.

There weren't significant changes made to the Fund during the period. On the fixed interest side, the most meaningful adjustment came as a position to UK Gilts was added, taking advantage of the continued rise in yields. As far as equity and alternative investments were concerned, there were no complete disposals, or new positions established.

#### Outlook

While stock prices have the potential to bounce off oversold levels in the near-term, the ultimate direction of markets over the course of the next 6-months is less clear. The case for the Bulls focuses on the better US growth backdrop, peak interest rates, positive earnings revision momentum and corporate updates that fit with soft landing expectations. Meanwhile, the Bears are focused on higher-for-longer interest rates, pivot pushback, TARA (there are real alternatives) over TINA (there is no alternative - to equities), inflation proving stickier than hoped and elevated geopolitical tensions.

Both arguments are persuasive and therefore we are maintaining a broadly neutral asset allocation for the time being, until such time as greater clarity is forthcoming.

#### Fund's performance

For the 6 months to 30 September 2023, the Fund returned -0.95% (USD R class). This compares to a fall of 0.73% for the Fund's peer group, the Morningstar Funds EEA USD Aggressive Allocation sector.

#### Activity/review

The Fund marginally underperformed its peer group over the reporting period, with positive relative returns in the second quarter eroded during the third.

The initial period of strong performance was driven by strong performance from a number of the underlying fund managers in the US, Asia and the emerging markets. In particular, it was pleasing that the Harris Associates US Equity Fund and GQG Partners US Equity Fund were able to outpace the FTSE USA Index, despite the outsized contribution to the index's rise from just a handful of technology stocks.

During May, the holding of the iShares MSCI World Minimum Volatility ETF was sold, and the proceeds used to increase the position in the iShares MSCI World Value Factor ETF. The following month, the US Treasury exposure was increased given the continued rise in yields and belief that value is now on offer in this market. Within equities, the thematic weighting was reduced slightly through sales of the Impax Environmental Markets Fund and Polar Capital Healthcare Blue Chip Fund.

The Fund made some changes in early July adding to US equities and reducing the gold exposure. The Fund sold its entire 5% holding of the value orientated Harris Associates US Equity and sold 2.7% of the iShares Physical Gold ETF. The Fund reinvested these proceeds in the Xtrackers S&P500 Equal Weighted ETF, bringing the weight up to 7.9% and opening a new position of 2.6% in the Vanquard S&P500 ETF.

#### Fund's performance

For the 6 months to 30 September 2023, the Fund returned 2.40% (USD R class). This compares to a fall of 0.08% for the Fund's peer group, the Morningstar Funds EEA USD Aggressive Allocation sector.

#### **Market review**

The last 6 months clearly showed that the US economy is in a league of its own in terms of growth, as massive fiscal spending on infrastructure and renewable energy, as well as the "reshoring" of Chinese manufacturing, help boost economic activity. The rest of the world is not so lucky, as higher rates, energy and consumer prices hold back growth in Europe and the UK, while China's economy continues to disappoint despite multiple (small) attempts by the authorities to help the beleaguered property sector, support lending institutions and generally encourage the consumer to turn more optimistic.

Japan was one of the few markets to buck the trend, as strong earnings momentum and attractive valuations continued to buoy stock prices.

#### Activity/review

The Fund outperformed its peer group over the reporting period, with relative returns boosted by both geographic allocation, which included an overweight allocation to Japan, and asset selection, as many of our active managers outperformed their respective market benchmarks.

In terms of activity, having started to reduce the Fund's thematic holdings in the first quarter of 2023, we completed the sale of the Fund's remaining thematic strategies during the review period, selling the Fund's holdings in the Polar Capital Global Insurance fund, the Ninety One GSF Environmental Markets fund and the Polar Capital Healthcare Opportunities fund. Our preference is to allocate on a country and regional basis at this time and we used the proceeds to continue to add to the Fund's holdings in Japanese, US and UK equities.

As noted above, Japanese companies are benefitting from strong macro and earnings momentum, and valuations remain attractive despite already healthy year-to-date returns. The Return on Equity of Japanese companies is also improving, which is providing the catalyst for the valuation gap with other markets to close.

Our rationale for adding to the US was in part currency driven, as the weakness in the dollar at the start of the year looked overdone.

Finally, we trimmed the Fund's allocation to Europe and Gold during the period, adding to the Fund's cash allocation as we moved into the seasonally weaker summer period for stock markets.

#### **Outlook**

While stock prices have the potential to bounce off oversold levels in the near-term, the ultimate direction of markets over the course of the next 6-months is less clear. The case for the Bulls focuses on the better US growth backdrop, peak interest rates, positive earnings revision momentum and corporate updates that fit with soft landing expectations. While Bears are focused on higher-for-longer interest rates, pivot pushback, TARA (there are real alternatives) over TINA (there is no alternative - to equities), inflation proving stickier than hoped and elevated geopolitical tensions.

While both arguments are persuasive, we are happy to err on the side of caution in an uncertain environment and are happy to maintain the optionality of a high cash weighting in the Fund, particularly when it is yielding more than 5%.

For the financial period ended 30 September 2023

#### **Canaccord Genuity Bond Fund**

#### Fund's performance

For the 6 months to 30 September 2023, the Fund returned +0.18% in total return terms. As a comparative, the iBoxx UK Government Bond 3-5 Year Index returned -1.33% for the same period.

#### **Market review**

The focus has now shifted from the level of peak rates, to how long central banks will hold rates at restrictive levels, with "higher for longer" increasingly viewed as the necessary scenario to tame stubborn price pressures. Fiscal sustainability is another area of concern for bond investors, with the US Treasury market in particular being hit by concerns over the amount of issuance that will be required to sustain a large fiscal deficit.

Given the backdrop, it is perhaps unsurprising that the path of least resistance for government bond yields was up during recent months, with yields reaching levels last seen in 2007.

Headwinds to the global economy posed by tight oil markets also caught investors' attention. The announcement that Saudi Arabia and Russia will extend voluntary oil output cuts through to the end of the year was the major catalyst behind the move. Higher oil prices not only threaten to pressure consumer spending but could also prove problematic for central banks if headline inflation begins to reaccelerate. This is a risk that will warrant careful monitoring over the coming months.

#### Activity/review

Maintaining short-dated and good quality maturities has sheltered the fund somewhat from the recent fixed interest market volatility.

The allocation to Sterling AAA rated / quasi-government bonds which gives some ballast to the fund has an average yield-to-maturity of 5.50% which compares very favourably with 5 year UK Gilts at 4.51%. Sterling investment grade bonds account for approximately 38% of the fund. The Sterling investment grade bucket is targeted around single A rated debt and offers an overall yield to maturity for the Fund of 6.52%. There is also a 10% allocation to US Treasuries (Conventional and Index-Linked) with an average yield to maturity of 4.53%. The specialist fund allocation is approximately 24%.

The key to achieving optimum risk-reward is diversification, encompassing a blend of traditional plain-vanilla bond assets, complemented by specialist / thematic bond fund strategies. The Fund's headline yield to maturity (YTM) is currently at 6.04% and we are currently targeting an income delivery of around 3.24% per annum. The Fund's duration is 3.40 years. The Fund's credit quality is strong with a weighting to the highest quality assets of 36% (AAA/AA/cash).

#### **Outlook**

Government bond yields are likely to remain elevated in the near-term; however, we expect them to eventually head lower, providing good investor returns on a six-to-twelve-month view. Corporate bonds should continue to offer a premium to government debt, but credit quality will become an increasingly important factor in achieving excess returns.

For the financial period ended 30 September 2023

#### **Canaccord Genuity Global Equity Fund**

#### Fund's performance

For the 6 months to 30 September 2023, the Fund fell 2.8% (R USD Acc share class). This compared to a 2.9% increase for the benchmark, the FTSE All World Total Return USD. In line with the strategy, the portfolio is much more geographically diverse than the benchmark, with just 32% of the portfolio in US companies compared to the FTSE All-World Index, which has >60%. The fund suffered on a relative basis as US equities benefitted from a boost in liquidity from the Federal Reserve post the banking crisis in March. In particular, the Nasdaq Composite index performed very strongly, rising 8.2% in the 6-month period. The fund was and remains underweight tech stocks given elevated valuations amid rising treasury bond yields.

#### **Market review**

GDP and unemployment data generally surprised to the upside in developed markets, leading to rising bond yields even as inflation continued to normalise from high levels. However, towards the end of the period investor concern turned to the potential for recession as the impact of higher interest rates started to bite. The Fed continued with its higher for longer rhetoric, leading to strengthening of the US Dollar from mid-July. Equity markets fell with the exception of Japan and the US, which was boosted by the same few tech companies that make up a large weighting in the S&P 500 index. In the past a strong US Dollar and fears around global growth might have put pressure on the oil price. However, Brent was remarkably resilient highlighting the underinvestment in production over the past 5 years and increasing power of OPEC to control supply. Having dipped below \$80 per barrel at the start of the year, Brent recovered to \$95 at the end of September. Our holdings in Total Energies, Aker BP, Schlumberger and GTT all performed well.

#### Activity/review

We exited a couple of cyclical industrials: Otis is exposed to the global high-rise property market and its valuation gap to peers had closed; Michelin is seeing increased competition in its core tyre business whilst trying to diversify into new technologies. We also exited a couple of high beta financials: Intermediate Capital was sold given our preference for holding Blackstone; Julius Baer benefitted from higher interest rates and disruption amongst its large Swiss competitors, but this has now largely played out in our view.

We sold Givaudan given continued volume weakness across the sector and a fading tailwind from higher prices. Given it may take some time to restore volume growth and margins, the valuation looks stretched. It is one that we will keep an eye on and may reconsider in the future.

We were fairly active within the Health Care sector. We booked profits in Novartis as the share re-rated to our target price. We sold Lonza before its profits warning given negative read across from industry peers. We added to our holding in Eli Lilly, which was the best performer in the fund over the period. We added Zoetis to the portfolio, the global leader in animal health. It is one we have wanted to add for a while but were waiting for a more attractive entry point. We took advantage of significant weakness in the medtech sector to add new positions in Tecan, Skan and Carl Zeiss Meditech, all market leaders in their niche.

We exited our position in Nasdaq after it announced the acquisition of Adenza from private equity group Thoma Bravo for \$10.5bn using a combination of cash and shares. Whilst we understand the long-term strategic rationale, the valuation multiple of 30.6x forecast EBITDA seems expensive and post the transaction, net debt is expected to rise to 4.7x EBITDA. We redeployed some of the proceeds into London Stock Exchange Group.

We added two new luxury fashion names, Ermenegildo Zegna and Brunello Cucinelli.

#### Outlook

Whilst we do not expect significant interest rate cuts this year, the sharp rate rises of the last 18 months now seem to be behind us. Whilst a higher for longer interest rate environment could keep pressure on some of the more highly valued areas of the market, earnings expectations should now be the main focus for investors. Our portfolio of profitable, leading companies from a wide range of industries should be well positioned to navigate the uncertain economic environment and take market share from competitors.

#### **Canaccord Genuity Thematic ESG Fund**

#### Fund's performance

For the 3 months to 30 September 2023, the Fund NAV declined 4.1%. This compared to a 2.96% decline for the Fund's peer group, the Morningstar EAA USD Aggressive Allocation sector.

#### **Market review**

This was a quarter where markets were volatile and narrow, with markets continuing to fret about inflation and significant outperformance generally limited to the relatively small number of megacap technology stocks and the energy sector. Generally it was a volatile quarter for equities and performance outside megacap technology and energy was negative.

#### Activity/review

The Fund underperformed the peer group during the quarter, with the fund having limited exposure to megacap technology and no exposure to the energy sector. Most of the fund's thematic exposure is typically oriented toward mid cap stocks in sectors like industrials, healthcare and utilities. The fund also has a meaningful weighting to environmental managers focused on clean energy, such as 91 Global Environment and Impax Environmental Markets which underperformed in a challenging quarter for both utilities and industrials. Those environmental managers who are more focussed on the demand side of the energy transition equation, such as EVs and batteries such as RobecoSAM Smart Materials, also struggled.

As noted above, one of our weakest performing themes this month were our managers' investments in clean energy stocks. This has been a challenging area primarily because of inflation and interest rates (build costs have increased substantially) but the structural drivers of the move to renewables and batteries remain really strong. We have high conviction in this theme and our underlying managers.

To zoom out a bit, climate change is a different problem to the one we faced a decade ago. The bad news is increasing emissions have increased the risk of extreme weather events, which we see happen with more regularity. The second bit of bad news is that renewable costs have increased over the last year, due to interest rates, inflation and supply chain issues. While these costs are reducing as inflation comes down, it has been a challenging period for companies involved in renewables.

The good news is technological improvements have given us the tools to tackle the problem. The longer term story is that renewable energy has become much cheaper over the past fifteen years, and is now very cost competitive when compared with fossil fuels. To give one example, today solar power is cheaper than most other ways of generating electricity. Countries are responding to this by installing more solar capacity. A good example of this trend is according to the IEA the fact solar and battery storage together will account for the vast majority of new electricity generation capacity additions this year in the US.

Interestingly clean energy installations in the US are not following the political pattern you might expect. A good example of this is a state with a lot of anti ESG rhetoric from it's politicians, like Texas, has installed more solar capacity this year than a state with much more pro ESG rhetoric like California. Away from the US, Europe, India and China are also installing a lot of new renewables capacity. They are doing this because they have an economic incentive to do this, as well as an environmental one.

We have every confidence in the specialist fund managers we use in this space who have a long track record and deep resources to manage the current volatility in market conditions.

#### <u>Outlook</u>

We think this year so far has been a good exercise in how hard it is to make short term market predictions. What we can say with more conviction is the underlying portfolios our fund managers own are no longer expensive when compared to traditional markets. We think given the growth expected in the underlying companies should the themes we invest in hold true, this creates an attractive longer term investment story for the fund managers we use.

#### NOTES TO THE CONDENSED FINANCIAL STATEMENTS

For the financial period ended 30 September 2023

#### 1. GENERAL

Canaccord Genuity Investment Funds plc (the "Company") is an open-ended investment company with variable capital structured as an umbrella fund with segregated liability between sub-funds. It was incorporated with limited liability in Ireland on 26 February 2003 and is authorised under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 51(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as amended, (the "Central Bank UCITS Regulations").

The Company is structured as an umbrella fund, in that different sub-funds ("Funds") may be established from time to time by the Directors with the prior approval of the Central Bank. During the financial period ended 30 September 2023, the Funds of the Company were:

Canaccord Genuity Cautious Fund (Formerly CGWM Cautious Fund) (launched 26 September 2008)

Canaccord Genuity Balanced Fund (Formerly CGWM Diversity Fund) (launched 26 September 2008)

Canaccord Genuity Growth Fund (Formerly CGWM Affinity Fund) (launched 26 September 2008)

Canaccord Genuity Opportunity Fund (Formerly CGWM Opportunity Fund) (launched 26 September 2008)

Canaccord Genuity Bond Fund (Formerly CGWM Bond Fund) (launched 16 January 2014)

Canaccord Genuity Global Equity Fund (Formerly CGWM Global Equity Fund) (launched 30 June 2016)

Canaccord Genuity Thematic ESG Fund (launched 19 December 2022)

The redeemable shares ("shares") in each Fund may be divided into a number of different share classes. The Directors may also add other share classes, which will be notified in advance to the Central Bank. Each Fund will represent a separate portfolio of assets and liabilities, which will be invested in accordance with the investment objectives applicable to each Fund.

All the share classes that are listed in the Share Capital note on pages 27 to 29 are listed on the official listing of the Euronext Dublin.

#### 2. PRINCIPAL ACCOUNTING POLICIES

The significant accounting policies adopted by the Company are as follows:

#### Basis of preparation

These condensed interim accounts have been prepared in accordance with IAS 34 'Interim Financial Reporting', and should be read in conjunction with the audited annual financial statements for the year ended 31 March 2023, which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). Accounting policies applied in the preparation of these condensed interim Financial Statements are consistent with the accounting policies applied in the preparation of the audited annual Financial Statements for the year ended 31 March 2023.

The financial statements have been prepared for the six months ended 30 September 2023.

#### Use of Estimates and Judgements

The preparation of the financial statements in conformity with IFRS requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future years if the revision affects both current and future years.

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements are the functional currency disclosed below.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the financial period ended 30 September 2023 is included in note 7 and relates to the determination of fair value of financial instruments with significant unobservable inputs if any.

#### Functional currency

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates (the 'functional currency'). The functional and presentation currency of the Company is Sterling. The functional and presentation currency for each Fund is Sterling with the exception of Canaccord Genuity Balanced Fund, Canaccord Genuity Growth Fund, Canaccord Genuity Fund, Canaccord Genuity Global Equity Fund and Canaccord Thematic ESG Fund where the functional and presentation currency is US Dollar. To calculate the total Company figures, US Dollar assets and liabilities in the Statement of Financial Position have been translated to Sterling at the financial period end rate of exchange for the financial period ended 30 September 2023 and the US Dollar income, expenses, gains and losses have been translated at the average rate of exchange on the Statement of Comprehensive Income.

For the financial period ended 30 September 2023

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

Functional currency (continued)

The foreign exchange adjustment on aggregation arising from the translation of the opening net assets is shown in the Statement of Changes in Net Assets attributable to holders of redeemable shares. The foreign exchange adjustment on aggregation in the Statement of Cash Flows arises from the difference between the average rates used in the Statement of Comprehensive Income and the financial period end rate used for the Statement of Financial Position cash balances. The method of translation has no effect on the Net Asset Value per share attributable to the individual Funds.

#### 3. RELATED PARTY DISCLOSURES

No Director, nor the Company Secretary, had any beneficial interest in the shares or any significant contracts with the Company during the financial period or in the prior financial period.

#### **Directors' Fees**

The total Directors' fees payable in any one year will not exceed GBP100,000 or such higher amount agreed by the Shareholders. Directors' fees charged for the financial period ended 30 September 2023 amounted to EUR15,000 (30 September 2022: EUR15,000). Andrew Finch and Grahame Lovett waive their Directors' fee.

The billed amounts stated above differ from those included in the Statement of Comprehensive Income due to under/over accruals and foreign exchange rate fluctuations.

#### 4. TRANSACTIONS WITH CONNECTED PERSONS

Any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or subdelegates of the UCITS or management company or depositary, and any associated or group company of such a UCITS or management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders.

The Directors are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the financial year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

#### 5. CASH DEPOSITS

At 30 September 2023, the Company held cash deposits of GBP20,186,109 (31 March 2023: GBP36,578,841) with The Northern Trust Company ("TNTC"). TNTC is a wholly owned subsidiary of Northern Trust Corporation. As at 30 September 2023, Northern Trust Corporation had a long term credit rating from Standard & Poor's of A+ (31 March 2023: A+).

A credit facility with TNTC is in operation. Each Fund may borrow up to 10% of its Net Asset Value provided this borrowing is on a temporary basis. Credit balances (i.e. cash) may not be offset against borrowings when determining the percentage of borrowings outstanding. The Company on behalf of each Fund grants TNTC a continuing lien on all assets held in relation to the credit facility and that lien may be exercised for the purposes of securing any sum due and payable by the Funds to TNTC under this facility.

For the financial period ended 30 September 2023

#### 6. SHARE CAPITAL

The authorised share capital of the Company is 500,000,000,000 shares of no par value initially designated as unclassified shares available for issue as shares; the issued subscriber share capital of the Company is GBP7 represented by 7 subscriber shares (issued for the purposes of the incorporation of the Company). One share is held by Canaccord Genuity Wealth (International) Limited and the other six are held by Forest Nominees Limited. At the discretion of the Directors, the subscriber shares may be repurchased at their issue price.

#### 7. FINANCIAL RISK MANAGEMENT

#### **Fair Value Measurement Risk**

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level I Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. The type of investment which would generally be included would include equities, certain exchange traded funds and derivatives listed on a securities exchange.
- Level II Quoted prices in markets that are not considered to be active or financial instruments for which all
  significant inputs are observable, either directly or indirectly (including quoted prices for similar investments in
  active markets, interest rates and yield curves, credit risk, etc.). The type of investments which would generally
  be included in this category would include corporate bonds, certain investment funds, bank debt and certain overthe-counter derivatives.
- Level III Price or valuations that require inputs that are both significant to the fair value measurement and
  unobservable (including the Investment Manager's own assumptions and assumptions used by the Board of
  Directors about what market participants would use in determining the fair value of investments). The type of
  investments which would generally be included in this category would include private or debt securities issued by
  private entities. The inputs or methodology used for valuing securities are not necessarily an indication of the risks
  associated with investing in those securities.

For the financial period ended 30 September 2023

#### 9. SOFT COMMISSION AND DIRECT BROKERAGE ARRANGEMENTS

There were no soft commission or direct brokerage arrangements during the financial period or in the preceding financial period.

#### 10. TAXATION

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. It is not chargeable to Irish tax on its income or capital gains. However, the Company is obliged to apply withholding tax on the happening of a "chargeable event" including any distribution payments to Irish resident Shareholders or to Shareholders that are ordinarily resident in Ireland or on any encashment, redemption or transfer or deemed disposal of Shares by Irish resident Shareholders or by Shareholders that are ordinarily resident in Ireland, unless the Shareholder is exempted under Section 739D of the Taxes Consolidation Act, 1997, as amended. No tax will be required to be withheld by the Company in respect of chargeable events in respect of Shareholders who complete a relevant declaration confirming that they are neither Irish resident nor ordinarily resident in Ireland.

If the Company fails to deduct the tax or fails to collect the appropriate signed declaration from any non-resident or exempted Shareholders, the Company will remain liable for the tax. In these circumstances, the Company would seek to recover the tax paid from the relevant Shareholder.

Capital gains, dividends and interest received by the Company may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its Shareholders.

#### NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)

For the financial period ended 30 September 2023

#### 11. EFFICIENT PORTFOLIO MANAGEMENT

The Company may, on behalf of certain Funds, employ investment techniques and Financial Derivative Instruments for efficient portfolio management purposes and for currency hedging purposes subject to the conditions and within the limits laid down by the Central Bank. The Company and its relevant Funds may only invest in Financial Derivative Instruments as described in the Prospectus.

The counterparties used during the period included TNTC for over-the-counter derivatives. The realised and unrealised gains and losses arising during the period through the use of efficient portfolio management techniques are disclosed in the Statement of Comprehensive Income.

Open Financial Derivative Instrument contracts at the financial period end are disclosed in the Investment Portfolios which can be seen on pages 50 to 71, including the relevant Counterparty, the underlying securities, currencies or indices, and the market value or unrealised gain/loss on the contract at the financial period end.

#### 12. FEES AND OTHER EXPENSES

#### **Investment Manager**

The Investment Manager is entitled to an investment management fee for the launched Share Classes as set out below. Investment Management fees accrue daily and are paid monthly in arrears in the currency of the relevant Fund. Fee rates are based on the Net Asset Value of the Fund attributable to the class shares.

<sup>\*</sup>Please refer to page 49 for share class launch/relaunch/closure.

On Canaccord Genuity Cautious Fund and Canaccord Genuity Bond Fund, the Investment Management fees are allocated to capital. On Canaccord Genuity Balanced Fund, 50% of all ongoing Investment Management fees are allocated to capital.

The result of this allocation policy is that the capital growth of the Fund is less than if all Investment Management fees were charged to income. For financial reporting purposes the total fee is charged to the Statement of Comprehensive Income.

Expenses for the Fund are disclosed in the Statement of Comprehensive Income on pages 16 to 17.

#### **Management Company**

The fees of the Waystone Management Company (IE) Limited ("WMC") ("Management Company") are up to 0.01% per annum of the Net Asset Value of each Fund. The fees are accrued daily and paid monthly in arrears. The Management Company is entitled to be repaid all of its reasonable agreed upon transaction and other charges (which will be at normal commercial rates) and other out-of-pocket expenses out of the assets of the Fund (plus VAT thereon, if any). For 30 September 2023, the fees of the Management Company were 0.01% per annum of the Net Asset Value of each Fund.

#### **Depositary**

The Depositary is entitled to receive out of the assets of the Company, a monthly fee, accrued daily and payable monthly in arrears, based on the number of transactions and the Net Asset Value of each Fund, up to a maximum fee of 0.02% of the Net Asset Value of the Company per annum, subject to a minimum annual fee of GBP57,000 (30 September 2022: GBP54,000) in respect of the Company.

#### Sub-Custodian

The Depositary shall also be entitled to receive out of the assets of each Fund safe-keeping fees and transaction charges. Any sub-custody fees are at normal commercial rates.

#### Administrator

The Administrator is entitled to receive out of the assets of the Company, a monthly fee, accrued daily and payable monthly in arrears, up to a maximum fee of 0.06% of the Net Asset Value of the Company per annum, subject to a minimum annual fee of GBP138,000 (30 September 2022: GBP132,000) in respect of the Company.

#### **Transaction Costs**

Transaction costs incurred by the Funds for the financial period ended 30 September 2023 are shown separately on the Statement of Comprehensive Income and for the financial period amounted to GBP7,682 (30 September 2022: GBP5,899).

#### **RISK ITEM**

#### **Cybersecurity Risk**

Cybersecurity breaches may occur allowing an unauthorized party to gain access to assets of the Funds, Shareholder data, or proprietary information, or may cause the Company, the Investment Manager, the Marketing and Distributing Agents, the Administrator, the Depositary or the UCITS Management Company to suffer data corruption or lose operational functionality.

The Funds may be affected by intentional cybersecurity breaches which include unauthorized access to systems, networks, or devices (such as through "hacking" activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws). A cybersecurity breach could result in the loss or theft of Shareholder data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs. Such incidents could cause the Company, the Investment Manager, the UCITS Management Company, the Marketing and Distributing Agents, the Administrator, the Depositary, or other service providers to incur regulatory penalties, reputational damage, additional compliance costs, or financial loss. Consequently, Shareholders may lose some or all of their invested capital. In addition, such incidents could affect issuers in which a Fund invests, and thereby cause a Fund's investments to lose value, as a result of which investors, including the relevant Fund and its Shareholders, could potentially lose all or a portion of their investment with that issuer.

#### **SECURITIES FINANCING TRANSACTIONS REGULATION**

The Securities Financing Transactions Regulation, as published by the European Securities and Markets Authority, aims to improve the transparency of the securities financing markets. Disclosure regarding exposure to Securities Financing Transactions ("SFTs") is required on all reports and accounts published after 13 January 2017. During the financial period ending 30 September 2023, none of the Funds entered into any Securities Financing Transactions.
