CANACCORD CAPITAL INC.
Reports fourth quarter and fiscal year 2008 results

(All dollar amounts are stated in Canadian dollars unless otherwise indicated)

VANCOUVER, June 12, 2008 – Canaccord Capital Inc.’s (TSX & AIM: CCI) revenue for the three months ended March 31, 2008 was $143.4 million, down 33.7% from the same quarter a year ago. Net loss for the same period was $35.2 million, down $61.2 million, and diluted loss per share was $0.80, down $1.34 from the same period a year ago. Included in these results are non-recurring (non-GAAP) third party asset-backed commercial paper (ABCP) and restructuring charges of $58.2 million (pre-tax) related to the Canaccord Relief Program for clients holding ABCP, as previously announced on April 9, 2008, as well as a fair value adjustment of $4.2 million for the ABCP held by Canaccord in treasury. Excluding the ABCP and restructuring charges and adjustments, net income for the quarter would have been $7.2 million, down $18.8 million from the same period a year ago and diluted earnings per share (EPS) would have been $0.15.

Commenting on the quarter, Paul Reynolds, President and CEO said, “The fourth quarter of Canaccord’s fiscal year was a very challenging one, as it was for the entire industry. We were disappointed by our results and are committed to our efforts to reduce costs and increase margins in any market conditions. The charges we previously announced related to the Canaccord Relief Program and restructuring resulted in a loss for the quarter and further reduced earnings for the year. Despite this, Canaccord remained profitable on a fiscal year basis. As we see a return to normal levels of market activity, we are confident that Canaccord is well positioned and capitalized to return to normal levels of profitability.”

As announced on April 9, 2008, a non-recurring (non-GAAP) charge of $58.2 million pre-tax, $39.6 million after tax, or $0.82 per share has been recorded in Q4 of fiscal 2008 to reflect the cost of the Canaccord Relief Program and restructuring.

An adjustment of $4.2 million related to ABCP held by Canaccord in treasury has been recorded at March 31, 2008 to reflect management’s view of current market conditions and the limited liquidity for these notes. In total, $12.8 million has been recorded as an ABCP fair value adjustment in fiscal 2008. This ABCP is now valued at $29.9 million on the company’s balance sheet. The fair value was estimated by management and the adjustment has been recorded as an “ABCP fair value adjustment”. The incremental adjustment of $4.2 million booked this quarter is based on management’s estimate of the fair value of the ABCP by discounting expected future cash flows on a probability weighted basis considering the best available data.

Revenue for fiscal 2008 was $731.5 million, down 3.4% from a year ago. Net income was $31.3 million for fiscal 2008, representing a decrease of 66.5% from a year ago. Diluted EPS were $0.64, down $1.30 from $1.94 for the same period a year ago. Excluding the ABCP and restructuring charges and adjustments, net income would have been $79.3 million, down 15.1% compared to a year ago, and diluted EPS would have been $1.63, down 16.0%.

In the Investment Executive's Annual Survey of Investment Advisors’ 2008 Report, Canaccord was ranked:
- First for Technology Tools and Advisor Desktop
- First for Branch Managers
- First for IPO and New Issues
- Tied for first for Freedom to Make Objective Product Choices

Despite a challenging year, Canaccord’s rating remained the same in 2008 as in 2007. An improvement was seen in areas where we have focused, such as ongoing training, client account statements and consumer advertising. With continued focus on the Private Client Services division going forward, we hope to improve our score in other categories in fiscal 2009.

Beginning in Q4/08, we have changed how we report the number of Investment Advisors in Private Client Services to reflect the composition of our advisor force. We are now reporting our Investment Advisors as Advisory Teams to reflect how the business functions. Advisory Teams are normally comprised of one or more Investment Advisors and their assistants and associates, who together manage a shared set of client accounts. In addition to this, we are no longer including Advisory Teams that are led by, or only include, an Investment Advisor who has been licensed for less than 3 years in our Advisory Team count. These teams (also referred to as Rookie Teams) have been removed from the count to reflect the fact that it typically takes a new Investment Advisor approximately three years to build an average sized book. We had 354 Advisory Teams as of Q4/08, down 14 from Q4/07.

Beginning in Q4/08, we have adjusted how we report fee-based revenue to become more consistent with how other firms in the investment dealer industry calculate it. Now included in fee-based revenue are fees earned in separately managed, advisor managed and fee-based accounts, as well as mutual fund and segregated fund trailer revenue. As a result of this change, Canaccord's fee-based revenue accounted for 16.3% of Private Client Services’ revenue in Q4/08, compared to a recalculated 11.6% in Q4/07.

Assets under administration (AUA) of $14.3 billion, down 4.8% from $15.0 billion in Q4/07, compared to a decline in the TSX Venture Composite Index of 21.0% and an increase in the S&P/TSX Composite Index of 1.4% for fiscal 2008.

During fiscal 2008, Private Client Services implemented a new advisor managed account program known as Private Investment Management. Investment Advisors who have their Associate Portfolio Manager or Portfolio Manager designation now have the ability to provide discretionary management services similar to those offered by Investment Counsellors through this program.
