

Schedule of interest and charges

Canaccord Genuity Wealth Limited - effective 15 October 2018

Interest on your balance

The money we hold for you as part of our wealth management service is pooled with all other client money and held in client money bank accounts at a carefully selected panel of institutions.

You will receive or pay interest on your balances at the rates shown on this schedule, which may change from time to time. Interest accrues daily and will be applied to your account once a quarter in arrears.

Other rates may be available depending on circumstances (for example, if your money is in a currency other than sterling or dollars) and such rates may be negative.

For details of other conditions that might affect your interest payments or diversification, please check our Terms of Business.

If you have any questions, your Canaccord Investment Manager will be happy to help.
